I'll make sure to pass this along to the Chairman this morning. In re to CD20, it's actually at 56.3 and it performs 10/10 so it's a definite improvement from where we were and there is no reason to be concerned in that regard. I'll keep you all posted this morning on any changes.

Just had long talk w harvey hildebran who called me back. He did not know about the solomon amend and when I explained it took cd 20 back to benchmark and increased hispanics in cd 23 he said he wld study it and barton map and might not offer barton. Said purpose of barton was to improve cd 20. He also did not kno barton wld make a lot of del unhappy and hurt canseco and took three incumbents below 55 mccain so he said he wld study solomon amend tonite before making a decision. Think if burt called him and explained his amend hh wld not offer his.

Not that we don't have enough to worry about, as I was making my way through all the reports for each district I finally got to the Solomons amendment. Makes me want to shoot through the roof. I didn't go through all of this for nothing today. I got the stats in CD 20 to benchmark, 58.1 SSVR, etc. just to have them drop it back down to 55.6. I had a voice wondering in the back of my head how they were able to find enough Hispanics to jack Quico up from 52.8 to 54.1. I knew they couldn't do it alone with just 10k more in Maverick. They stole them from CD 20. This was the whole point behind this exercise. I gave them the tools to fix this, and it was used for this. I'm tempted to try to get someone to offer what I gave them as an amendment to Solomons amendment, but know that will blow things up.

Urrrgh!

I hope the first week of session is going well.

I wanted to introduce you to Congressman Ted Poe's new Chief, Gina. She's a Hill vet, but new to the Chief post like a few of us in the TX delegation.

Hopefully, you can sit down with her when you are in town next week.
